

JONATHAN DOORNENBAL

FILMMAKER. DIRECTOR.

ABOUT ME

I am a filmmaker specialised in capturing meaningful stories. For the past 10 years I've been making videos in over 30 countries for various clients. Therefore run n' gun filmmaking & storytelling has become my specialty. In order to make the best possible videos, I've acquired all necessary skills from filming, lighting, interviewing, sound recording, drone operating, editing & color grading. Recently I've started doing more work as a director. Having a basic understanding of each department on set helps me to work together with a crew.
